Using Social Networking Tools for E-Learning

By Dr. Ahmad Khan

Whats a social media

Why we need social Media

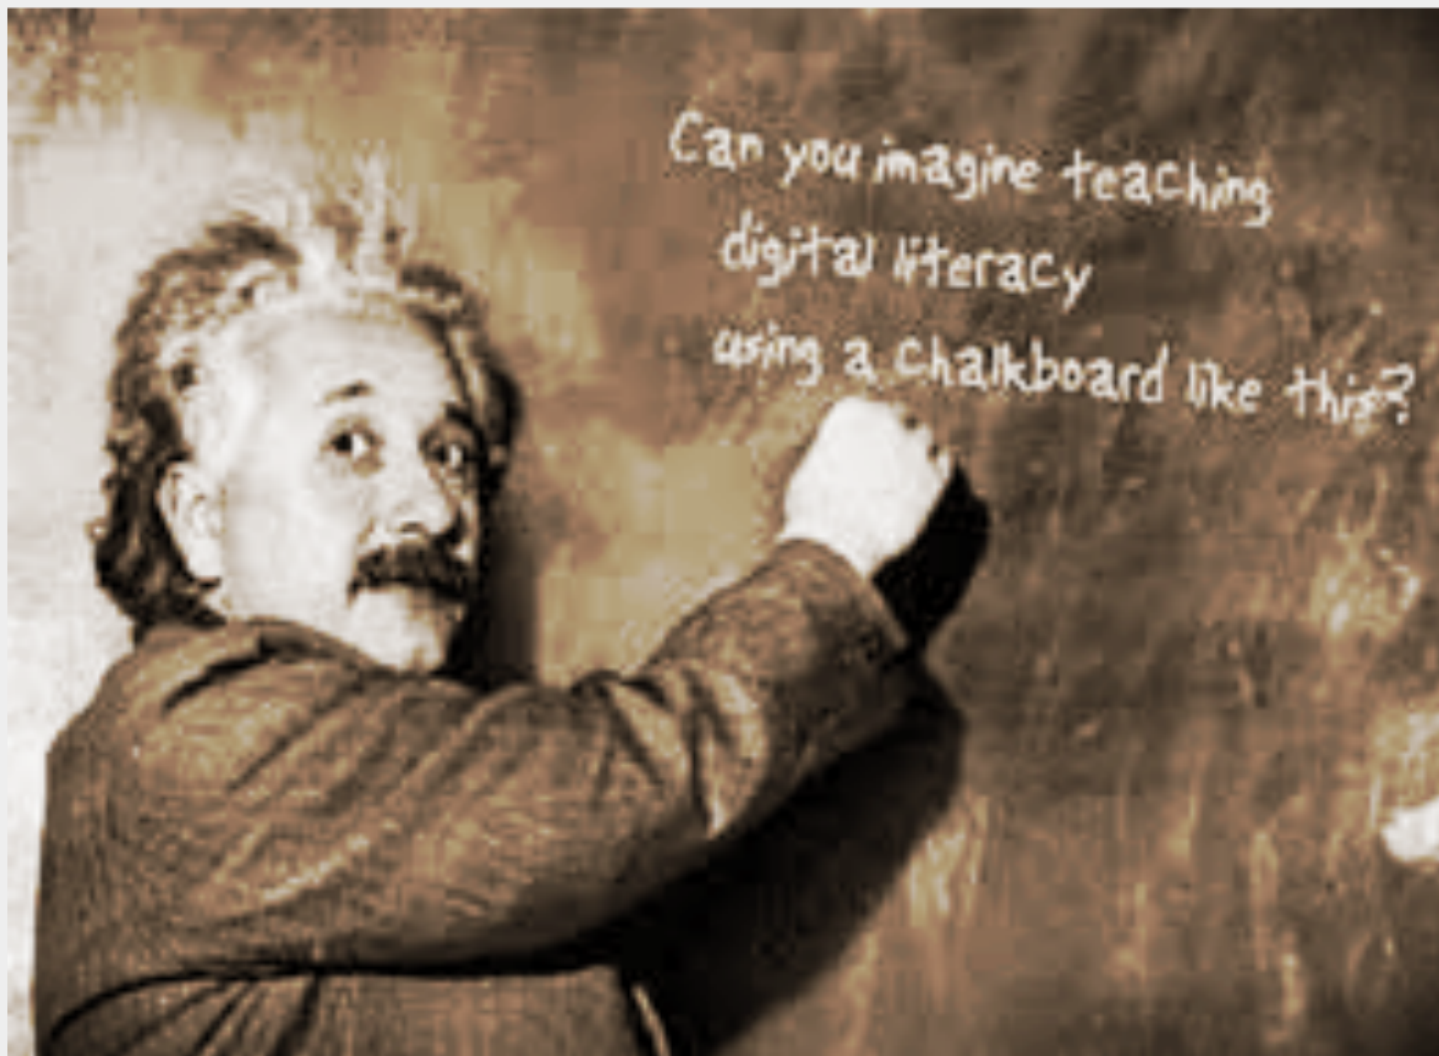

For Collaboration
For Communication
Information Exchange
For Social Status Updates
and much more.....

Can we really use it for teaching and learning process? **Are we Digitally Literate**

Where are the students

Where is the teacher

How to Connect Students and the Teacher

Use

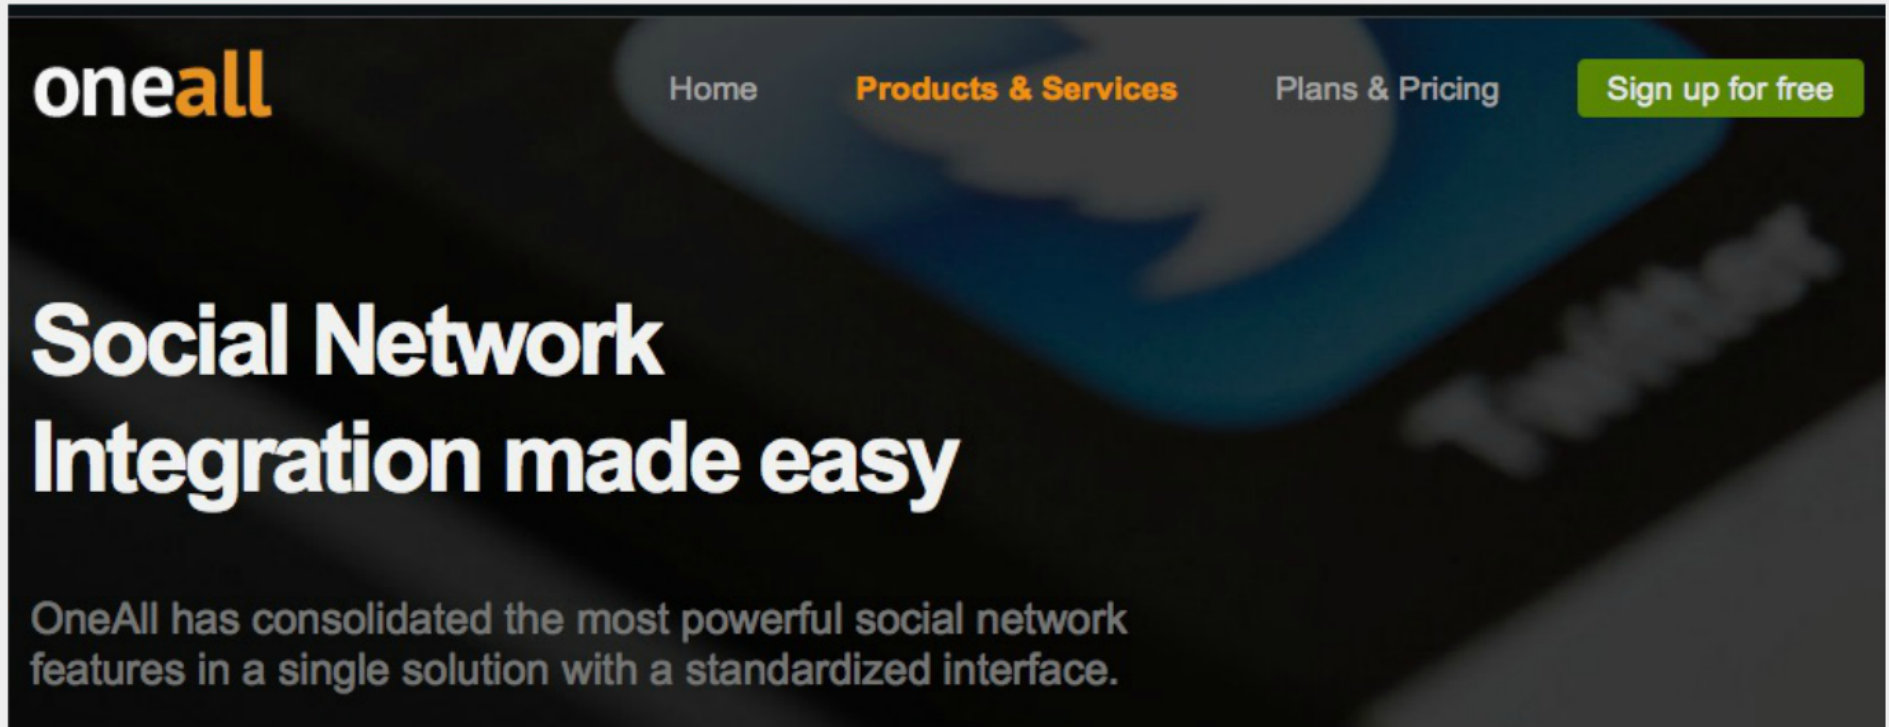

CST

Connect Students with teachers

Platform

As most of the students today use social networking Tools. Teachers should create social accounts to connect to the students over social platforms

Single Sign on Service

The image shows a screenshot of the OneAll website. At the top left is the 'oneall' logo. To its right are navigation links: 'Home', 'Products & Services' (highlighted in orange), and 'Plans & Pricing'. Further right is a green button that says 'Sign up for free'. Below the navigation is a large heading: 'Social Network Integration made easy'. Underneath the heading is a paragraph of text: 'OneAll has consolidated the most powerful social network features in a single solution with a standardized interface.' The background of the screenshot is dark with a blurred image of a hand holding a smartphone.
